

# TRACOM FOB-AM FIBER OPTIC ENCLOSURE

P-FOB-AM

A fiber optic enclosure supporting organization of up to six optical fibers. It is designed for two optical cables and can accommodate up to four fiber optic adapters.

This fiber optic enclosure is a versatile solution for telecommunication installations and server rooms, especially in locations with limited space, where a large number of fibers at a single point is not required.

**The set includes:**

- Heat shrink splice protectors (6 pcs)
- Tapes (1 pcs)
- Mounting screws and nuts
