

# TRACOM FOB-B02 FIBER OPTIC ENCLOSURE

P-FOB-B02

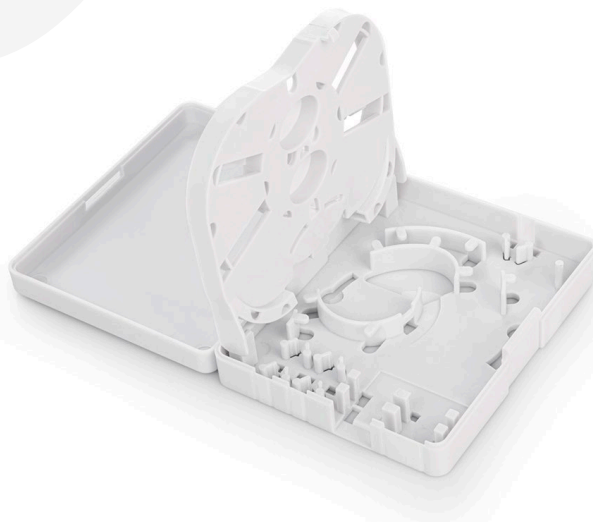

A fiber optic enclosure featuring space for one SC SIMPLEX / LC DUPLEX adapter (SC Mount) or two adapters without flange (no flange). It allows routing up to three optical cables or ready-made patch cords.

This fiber optic enclosure is a versatile solution for telecommunication installations and server rooms, especially in locations with limited space, where a large number of fibers at a single point is not required.

**The set includes:**

- Splice protectors
- Mounting screw
